

INTERNATIONAL SEARCH REPORT

tional Application No

/GB2004/002351

A. CLASSIFICATION OF SUBJECT MATTER

IPC 7 C07K16/08 C07K16/12 C07K16/14 C07K16/16 C07K16/18
A61P31/00

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 C07K

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, BIOSIS, PAJ, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
A	MAYER-CN ET AL.: "Antitoxin therapy for botulinum intoxication" REVIEWS IN MEDICAL MICROBIOLOGY, vol. 12, no. 1, January 2001 (2001-01), pages 29-37, XP002299273 the whole document -----	1-21
A	MULLER B H ET AL: "Phage-displayed and soluble mouse scFv fragments neutralize rabies virus." JOURNAL OF VIROLOGICAL METHODS. SEP 1997, vol. 67, no. 2, September 1997 (1997-09), pages 221-233, XP002299274 ISSN: 0166-0934 abstract ----- -/-	1-21

Further documents are listed in the continuation of box C.

Patent family members are listed in annex.

* Special categories of cited documents :

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

T later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

X document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

Y document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

& document member of the same patent family

Date of the actual completion of the international search

7 October 2004

Date of mailing of the international search report

21/10/2004

Name and mailing address of the ISA

European Patent Office, P.B. 5818 Patentlaan 2
